

DEALERSHIP DROP-OFF

With Dealership Drop-Off you are offering the customers of your dealership a very special service. For service or repair, customers can bring their cars at any time, day or night, and be sure that the keys and documents are safely deposited.

Customers benefit from added convenience and time savings - and there is no requirement for you to have staff in place to receive the cars that are being dropped off.

Design

- Modular construction
- Units can either be free-standing or incorporated within the façade of the building
- Manufactured in 3 mm brushed stainless steel – weather-proof and secure

Dealership Drop-Off

- Size: 930 x 500 x 500 (H x W x D)
- Drawer for the deposit of order documentation (up to A4 in size)
- Door location options – to the front, back or the side of the unit

Function

In the front compartment of the acceptance drawer is the supply of order envelopes. The customer inserts keys and any related order documentation in the order envelope and posts it into a chute at the rear of the drawer.

Once the draw is closed, the order envelope and all its contents are securely held awaiting collection by the dealership staff.

Total: approx. 75 kg
